Part A - Key estimates of number of employees and their earnings

Table A – Number of employees as at the end of March 2009 and June 2009, and gross earnings for the quarters ended March 2009 and June 2009.

Main estimates	Quarter ended June 2008	Quarter ended March 2009*	Quarter ended June 2009	Percentage change between the quarters ended March 2009 and June 2009	Percentage change between the quarters ended June 2008 and June 2009
Number of employees (000)	8 457	8 326	8 259	-0,8	-2,3
Gross earnings (R' 000)	244 021 000	259 223 000	259 652 000	0,2	6,4

*Revised estimates

Key findings for the quarter ended June 2009

Employment in the formal non-agricultural business sector decreased between the quarters ended March 2009 and June 2009.

The June 2009 Quarterly Employment Statistics (QES) survey showed that the number of people employed in the formal non-agricultural business sector of the South African economy decreased by about 67 000 persons (or -0,8%) from March 2009 (an estimated 8 326 000 employees) to June 2009 (an estimated 8 259 000 employees).

Gross earnings paid to employees in the formal non-agricultural business sector increased between the quarters ended March 2009 and June 2009.

The gross earnings paid to employees during the quarter ended June 2009 (April 2009 to June 2009) amounted to R259 652 million. This reflects a quarterly increase of R429 million (or +0,2%) compared with the quarter ended March 2009 (January 2009 to March 2009).

Employment in the formal non-agricultural business sector decreased between the quarters ended June 2008 and June 2009.

The June 2009 Quarterly Employment Statistics (QES) survey shows that an estimated 8 259 000 people were employed in the formal non-agricultural business sector of the South African economy. This reflected an annual decrease of about 198 000 employees (or -2,3%) compared with June 2008 (an estimated 8 457 000 employees).

Gross earnings paid to employees in the formal non-agricultural business sector increased between the quarters ended March 2008 and March 2009.

The gross earnings paid to employees during the quarter ended June 2009 (April 2009 to June 2009) amounted to R259 652 million. This reflects an annual increase of R15 631 million (or +6,4%) compared with the quarter ended June 2008 (April 2008 to June 2008).

Part B - Key estimates of average monthly earnings

Table B – Average monthly earnings paid to employees in the formal non-agricultural business sector

Average monthly earnings	May 2008 (Rand)	February 2009 (Rand)*	May 2009 (Rand)	Percentage change between February 2009 and May 2009	Percentage change between May 2008 and May 2009
Including bonuses and overtime payments	9 142	9 614	9 730	1,2	6,4

*Revised estimates

Key findings regarding average monthly earnings including bonuses and overtime payments

Average monthly earnings, including bonuses and overtime payments, paid to employees in the formal non-agricultural business sector increased between February 2009 and May 2009.

The June 2009 Quarterly Employment Statistics (QES) survey reflected a quarterly increase of 1,2% in average monthly earnings paid to employees in the formal non-agricultural business sector between February 2009 (an estimated R9 614) and May 2009 (an estimated R9 730).

Average monthly earnings, including bonuses and overtime payments, paid to employees in the formal non-agricultural business sector increased between May 2008 and May 2009.

The June 2009 Quarterly Employment Statistics (QES) survey reflected an annual increase of 6,4% in average monthly earnings paid to employees in the formal non-agricultural business sector between May 2008 (an estimated R9 142) and May 2009 (an estimated R9 730).

**PJ Lehohla
Statistician-General**

Level of employees as at June 2009 Quarter

The *mining and quarrying industry* reported an annual decrease of 26 000 employees (or -5,0%) at June 2009 compared with June 2008.

There was a quarterly decrease of 6 000 employees (or -1,2%) at June 2009 compared with March 2009.

See explanatory notes.

The *manufacturing industry* reported an annual decrease of 82 000 employees (or -6,3%) at June 2009 compared with June 2008.

There was a quarterly decrease of 14 000 employees (or -1,1%) at June 2009 compared with March 2009. This is mainly due to the decreases in employment in the manufacturing of wood and products of wood and cork, paper and paper products, printing and reproduction of recorded media; manufacturing of coke, refined petroleum products and nuclear fuel; manufacturing of basic metals, fabricated metal products, machinery and equipment and office, accounting and computing machinery; manufacturing of transport equipment; and manufacturing of furniture, and not elsewhere classified.

The *electricity, gas and water supply industry* reported no annual change at June 2009 compared with June 2008.

There was a quarterly decrease of 1 000 employees (or -1,7%) at June 2009 compared with March 2009.

The *construction industry* reported an annual decrease of 23 000 employees (or -4,9%) at June 2009 compared with June 2008.

There was a quarterly decrease of 7 000 employees (or -1,5%) at June 2009 compared with March 2009. This is mainly due to decreases in employment in building of complete construction; and building installations.

The *wholesale and retail trade; repair of motor vehicles, motor cycles and personal and household goods; hotels and restaurants industry* reported an annual decrease of 62 000 employees (or -3,6%) at June 2009 compared with June 2008.

There was a quarterly decrease of 17 000 employees (or -1,0%) at June 2009 compared with March 2009. This is due to decreases in employment in wholesale and retail trade; repair of motor vehicles and motor cycles and personal and household goods; hotels and restaurants.

The *transport, storage and communication industry* reported an annual decrease of 7 000 employees (or -1,9%) at June 2009 compared with June 2008.

There was a quarterly decrease of 5 000 employees (or -1,4%) at June 2009 compared with March 2009. This is mainly due to decreases in employment in land transport; and transport via pipelines.

The *financial intermediation, insurance, real estate and business services industry* reported an annual decrease of 80 000 employees (or -4,2%) at June 2009 compared with June 2008.

There was a quarterly decrease of 36 000 employees (or -1,9%) at June 2009 compared with March 2009. This is mainly due to decreases in employment in insurance and pension funding, except compulsory social security; real estate activities; renting of machinery and equipment without operator and of personal goods; advertising; and other business activities not elsewhere classified.

The *community, social and personal services industry* reported an annual increase of 82 000 employees (or +3,9%) at June 2009 compared with June 2008.

There was a quarterly increase of 19 000 employees (or +0,9%) at June 2009 compared with March 2009. This is mainly due to increases in employment in government institutions; provincial government; other central government activities; and education.

Gross earnings paid to employees for the quarter ended June 2009

Gross earnings paid to employees in the *mining and quarrying industry* reflected an annual increase of R1 127 million (or +7,7%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R124 million (or +0,8%) for the quarter ended June 2009 compared with the quarter ended March 2009.

See explanatory notes.

Gross earnings paid to employees in the *manufacturing industry* reflected an annual increase of R851 million (or +2,6%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R225 million (or +0,7%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *electricity, gas and water supply industry* reflected an annual increase of R555 million (or +19,0%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly decrease of R38 million (or -1,1%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *construction industry* reflected an annual increase of R297 million (or +3,2%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R243 million (or +2,6%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *wholesale and retail trade; repair of motor vehicles, motor cycles and personal and household goods; hotels and restaurants industry* reflected an annual increase of R962 million (or +2,8%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R51 million (or +0,1%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *transport, storage and communication industry* reflected an annual decrease of R302 million (or -2,0%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R1 021 million (or +7,3%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *financial intermediation, insurance, real estate and business services industry* reflected an annual increase of R2 610 million (or +4,1%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly decrease of R3 670 million (or -5,3%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Gross earnings paid to employees in the *community, social and personal services industry* reflected an annual increase of R9 531 million (or +13,3%) for the quarter ended June 2009 compared with the quarter ended June 2008.

There was a quarterly increase of R2 473 million (or +3,2%) for the quarter ended June 2009 compared with the quarter ended March 2009.

Additional information

Technical notes

- 1 Confidence intervals** **The estimated population value will be contained within the interval between the lower and upper 95% confidence limits.**

The 95% confidence intervals of a population parameter (gross salaries and wages) is obtained as follows:

Lower limit

= lower 95% confidence limit of a population parameter
= estimate – 1,96*Standard Error (estimate)

and

Upper limit

= upper 95% confidence limit of a population parameter
= estimate + 1,96*Standard Error (estimate)

$$1.1 \text{ Standard Error (SE)} = \frac{\text{upper limit} - \text{lower limit}}{2 \times 1,96}$$

$$1.2 \text{ Relative Standard Error (RSE)} = \frac{\text{SE (estimate)}}{\text{estimate}} \times 100$$

*Revised estimates.

**Data obtained from the Department of Mineral Resources (see explanatory notes). At this stage the Department of Mineral Resources is unable to provide data items with regard to bonuses and overtime payments separately.

Explanatory notes

- Introduction** This publication contains results of the quarterly employment statistics survey of enterprises in the formal non-agricultural business sector of the South African economy. The survey is designed to obtain information regarding: the number of persons employed in the business; gross earnings paid; bonuses paid; overtime payments; and severance, termination and redundancy payments paid to employees for each month of the reference quarter.
- Part 1 deals with the estimation of the number of employees and their earnings.
- Part 2 deals with the estimation of average monthly earnings.
- Scope of the survey** 1. This survey covers employment statistics of the following industries according to the *Standard Industrial Classification of all Economic Activities (SIC)*, Fifth edition, January 1993:
- mining and quarrying industry;
 - manufacturing industry;
 - electricity, gas and water supply industry;
 - construction industry;
 - wholesale and retail trade; repair of motor vehicles, motor cycles and personal and household goods; hotels and restaurants industry;
 - transport, storage and communication industry;
 - financial intermediation, insurance, real estate and business services industry; and
 - community, social and personal services industry.
- Classification** 2. The *Standard Industrial Classification of all Economic Activities (SIC)*, Fifth edition, January 1993, was used to classify the statistical units in the survey. The SIC is based on the 1990 *International Standard Industrial Classification of all Economic Activities (ISIC)*, with suitable adaptations for local conditions. Statistics in this publication are only presented at the SIC major division (one digit) level. **Each enterprise is classified to the industry which reflects the predominant activity of the enterprise.**
- Statistical unit** 3. The statistical unit for the collection of information is an enterprise. An enterprise is a legal unit or a combination of legal units that includes and directly controls all functions necessary to carry out its production activities.
- Purpose of the survey** 4. The Quarterly Employment Statistics (QES) survey is a quarterly survey covering a sample of approximately 22 006 private and public enterprises in the formal non-agricultural business sector of the South African economy. The information received is used to estimate employment and gross earnings that are used as inputs to the Gross Domestic Product (GDP) and to estimate key economic statistics on average monthly earnings that are mainly used for monitoring economic indicators of the South African economy.

- Mining**
5. Stats SA receives information regarding the mining and quarrying industry from the Department of Mineral Resources. The information for the latest quarter is preliminary and will be revised by the Minerals Bureau as soon as they receive more information from the different mines. Users must take note that gross earnings estimates based on the 2006 frame exclude severance, termination and redundancy payments paid during the reference quarter.
- Notes on estimates**
6. Average monthly earnings statistics represent average gross (before tax) earnings of employees and do not relate to the earnings of the 'average' person. Estimates of average monthly earnings are derived by dividing estimates of monthly total earnings by estimates of number of employees. Changes in the average may be affected not only by changes in the level of earnings of employees but also by changes in the overall composition of the wage and salary earner segment of the labour force. There are several aspects which can contribute to compositional changes, including variations over time in the proportions of full-time, part-time and casual employees.
- Reliability of estimates**
7. Inaccuracies may occur because of imperfections in reporting by enterprises and errors made with the collection and processing of the data. Inaccuracies of this kind are referred to as non-sampling errors. Every effort is made to reduce non-sampling errors to a minimum by designing the questionnaire carefully, undertaking pilot studies, editing the data and efficient operating procedures. Fluctuations may occur in consecutive quarters as a result of seasonal and economic factors.
- Standard errors**
8. The estimates in this publication are based on a sample drawn from units in the surveyed population. As a result of the entire population not being surveyed, the published estimates are subject to sampling error. The most common way of quantifying such sampling error is to calculate the standard error for the published estimate or statistic.
- Effects of rounding**
9. Estimates of average monthly earnings are rounded to the nearest rand. Percentage changes are calculated on the actual values and may differ from calculations on rounded estimates. The sum of the rounded industry estimates do not necessarily add to the total.
- Revised figures**
10. Figures for the quarters published in this release are preliminary and may be revised in subsequent publications.

Glossary

Annual percentage change	An annual percentage change is the change in the employment, the gross earnings or the average monthly earnings of the given period compared with the employment, the gross earnings or the average monthly earnings of the corresponding period of the previous year expressed as a percentage.
Average monthly earnings at constant 2000 prices	Average monthly earnings at constant 2000 prices measure average monthly earnings after the direct effects of inflation have been eliminated. The deflator used to deflate the current average earnings is the consumer price index (2000=100). This index has been linked to the new CPI that has been rebased to 2008 = 100 from January 2009.
Average monthly earnings at current prices	Average monthly earnings at current prices are calculated by dividing the total gross earnings, excluding severance, termination and redundancy payments, for the reference month by the number of employees as at the end of the reference month.
Casual employees	Casual employees are employees who fall neither within the 'permanent employee' category nor within that of a 'temporary employee'. Such employees are typically working daily or hourly. Employers can dispense with their services at a very short notice, usually not exceeding a period of one week. Casual employees are not entitled to benefits such as paid leave and medical aid contributions paid by employers. Casual employees can be part-time or full time.
Enterprises	Enterprises are legal units, or a combination of legal units, that include and directly control all functions necessary to carry out their production activities.
Formal sector	The formal sector includes all businesses that are registered in any way.
Full-time employees	Full-time employees are those permanent, temporary and casual employees who normally work the agreed number of hours in their particular occupation or, if the agreed number of hours does not apply, who normally work 40 hours or more per week. This excludes the self-employed and working proprietors. (Refer to notes on number of employees below.)
Gross earnings	Gross earnings are payments for ordinary-time, standard or agreed hours during the reference period for all permanent, temporary, casual, managerial and executive employees before taxation and other deductions for the reference period. This includes salaries and wages; commission if a retainer, wage or salary was also paid; employer's contribution to pension, provident, medical aid, sick pay and other funds; allowances; etc., but excludes earnings of sole proprietors or partners of unincorporated businesses; commission where a retainer, wage or salary was not paid; payments to subcontractors and consultants who are not part of the enterprise; performance and others bonuses; overtime payments; and severance, termination and redundancy payments. Gross earnings in part 1 are the total sum of the earnings for the three months of the reference quarter (e.g. gross earnings of quarter ended September is the sum of total earnings of July, August and September).

Industries	Industries consist of groups of enterprises engaged in the same or similar kind of activity. The definition of industries is based on the <i>System of National Accounts (SNA)</i> and is in line with that in the <i>Standard Industrial Classification of all Economic Activities (SIC)</i> , Fifth Edition, and Report No. 09-09-02 of January 1993.
Informal sector	The informal sector consists of those businesses that are not registered in any way. They are generally small in nature, and are seldom run from business premises. Instead, they are generally run from homes, street pavements and other informal arrangements.
Number of employees	The number of employees is the number of people employed by the business who received payment (in salaries; wages; commission, in addition to a retainer, salary or wage; piece rates; or payments in kind) for any part of the reference period. This excludes independent contractors and consultants; working proprietors; sole and joint owners; and employees paid on a commission basis where a retainer, salary or wage was not paid. The number of employees refers to the number of people employed at the end of the reference period.
Ordinary-time hours	Ordinary-time hours are those hours actually worked during normal periods of work. These hours include hours of paid leave taken during the reference period (e.g. sick leave, annual leave) and hours of normal shift work. Ordinary-time hours paid for exclude overtime hours worked, hours relating to payment in advance and hours relating to back pay.
Overtime hours paid for	Overtime hours paid for are those hours worked in excess of ordinary-time hours, standard or agreed hours of work that were paid for in the reference period.
Overtime payments	Overtime payments refer to payment for hours worked and paid for in excess of ordinary-time hours, standard or agreed hours worked for the reference period. Penalty payments that relate to overtime are also included.
Part-time employees	Part-time employees are those permanent, temporary or casual employees who are not full-time employees as defined above or who normally work less than 40 hours per week. This excludes the self-employed at work or with an enterprise but temporarily not at work.
Performance and other bonuses	<p>Performance and other bonuses cover seasonal, end-of-year and one-time bonuses and additional payments supplementary to normal payments.</p> <p>Performance and other bonuses include profit-sharing bonuses, merit bonuses, incentive bonuses, total amounts of payments that were paid during the reference period but relate to other pay periods, e.g. annual leave, thirteenth cheques. Performance and other bonuses exclude reimbursements for expenses incurred whilst conducting employer's business; severance, termination and redundancy payments.</p>
Permanent employees	Permanent employees are employees appointed on an open-ended contract with no stipulated termination date, and who are entitled to benefits such as paid leave and medical aid contributions paid by employers. This excludes the self-employed at work.

Quarterly percentage change	A quarterly percentage change is the change in the employment, the gross earnings or the average monthly earnings of the given quarter/month compared with the employment, the gross earnings or the average monthly earnings of the previous quarter/month expressed as a percentage.
Reference quarter/month/period	Reference quarter/period in part 1 of this publication refers to the three months up to the end of March, June, September or December. Reference month/period in part 2 of this publication refers to the months of February, May, August or November.
Severance, termination and redundancy payments	Severance, termination and redundancy payments include payments of accumulated leave made to employees who finished work during the reference period as well as payments intended to compensate for loss of employment.
Temporary employees	Temporary employees are employees appointed on a short-term contract basis for periods normally not exceeding one year. Such contracts would typically stipulate a termination date, but could be renewed by mutual agreement between the employer and the employee. This excludes the self-employed with an enterprise but temporarily not at work.

General information

Stats SA publishes approximately 300 different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, locally and also by international economic and social- scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable), result from their own processing of the data.

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following public libraries:

National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
